

Personal Guarantee

As your dental health care professional, my goal is to exceed your expectations of excellence in providing exceptional preventive, restorative, implant and cosmetic dental services in an environment focused on your personal care and comfort.

Any restoration placed by my practice is expected to last many years. This life expectancy is accomplished through a partnership between you, the patient, and my practice. We will ensure the life of the restoration through the use of quality materials, precision preparation of the tooth, proper placement of materials, and your commitment to professional maintenance care. You participate by practicing consistent, outstanding home care, which includes daily brushing and flossing.

Upon completion of your treatment you will be given detailed care instructions regarding the services provided. It is your responsibility to read the materials provided, and to receive at least two professional dental maintenance cleanings and examinations a year at my office.

Composite (tooth colored) restorations, depending upon the size, are expected to last from five to seven years. Porcelain or gold restorations are anticipated to last from ten to fifteen years. If under normal conditions, a composite restoration fails within the first year of placement, or a porcelain or gold restoration fails within the first two years of placement, the restoration will be repaired or replaced at no cost. Conditions such as malocclusion, clenching or grinding can cause ongoing patterns of wear on teeth, and also contribute to fracture or tooth loss. Diagnosis and treatment recommendations will be made, and may include orthodontic referrals or bite splint therapy. In the event that such findings exist, they must be addressed before receiving restorative dentistry in order for the restorative treatment guarantee to be honored.

This guarantee provision is designed to assist you when making important choices to improve your quality of life and health. It also provides you with reassurance that we are dedicated to excellence and stand behind our work. If you have any questions regarding the services provided or the personal guarantee, we welcome the opportunity to speak with you.
